**2023/2024**

High-visible model in the Naos collection

# CXS NAOS HV

thigh ventilation

4-way stretch material

CORDURA accessories

segmented reflective tapes

adjustable cuffs

We are expanding the CXS NAOS men's work collection with a model in an attractive black-HV yellow colour, which is ideal for areas and workplaces where increased visibility is required. The Naos HV model features segmented reflective stripes and will be certified to EN ISO 20471 (Class 1).

As with the entire collection, this colour option will combine a 4-way stretch construction that ensures comfort and ease of movement with its stretchability in all four directions, and highly durable CORDURA placed in exposed areas. The snugger fit of these workwear garments helps the ergonomics of movement. The model has been created for those who prefer to move freely and be seen at work.

Work vest with HV blue/red segments

# CXS LEONIS

modern quilting

reflective accessories around the zipper pocket

combined fabrics

elastic bottom hem

When it's too warm for a jacket and too cold for a T-shirt, it's the perfect time to wear a vest. It keeps you slightly warm but doesn't restrict your mobility at work. It's the perfect complement to the Leonis trousers, but also to other work trousers. The vest is suitable for work and leisure activities. The modern quilted look matches every style of dressing.

# CXS UNIVERSE CLOUD S3S

# CXS UNIVERSE STRATUS S3S

New safety models in CXS Universe collection featuring an innovative tightening system for quick on and off. Both models are developed with a protective plastic toe cap and Dyna-Flex® insole. The upper is made of one split nubuck leather piece., which has excellent hydrophobic properties. The front of the shoe is protected by a robust PU overcap and the heel is reinforced with durable TPU. Breathable textile lining resists abrasion and provides foot comfort all day long. The PU-PU outsole is non-slip, anti-static and oil resistant.

The product is not yet in the 2023/2024 product catalogue

New footwear in the CXS LAND collection

# SENJA S3S

## FYN S3S

The new Senja S3S and Fyn S3S safety models offer uncompromising work protection. The Forefoot is protected with a composite toe cap and external reinforcement of structured TPU that meets SC abrasion resistance. A textile anti-penetration insole prevents puncturing the sole with sharp objects. The outside heel TPU reinforcement and comfortable removable shock-absorbing insole are followed by inner heel reinforcement made of a material that prevents abrasion. The models are equipped with an anti-static sole that meets work standards, such as anti-slip, resistance to oils and contact temperature up to 300 °C.

New hearing protection series

# CXS CORTIX

by rotary movement it is possible to fold  
the container to the side and remove the  
container for refilling

pack of 500 pairs designed for the dispenser

rotary system for dispensing earplugs

**washable PVC string connecting protectors**

**practical case for keeping the protectors for more than one shift**

CXS CORTIX ear plugs. This ear protection is suitable for use in industries with higher noise levels. Classic FEP-03 disposable plugs are made of soft polyurethane. SNR 34 d B attenuation values. A string option of FEP-03C can be chosen. The EP-06TC monprene plugs can be washed, stored in a small travel box and reused. SNR 27 d B attenuation values. Flexible outer rim allows to fit the ear canal without shaping.

We also launch our own earplug dispenser that can be left free standing or mounted on the wall. The release of the protectors from the dispensers is done by a simple rotary system.

## **CXS NEVADA**

The Nevada women's softshell jackets in new pink colour.

## **CXS OCEANIA**

Reversible Oceania jacket in a new colour combination. If you're not in the mood for the smoky blue version in the morning, just flip the jacket over and you'll have a beautiful grey version of this jacket at your disposal.

## **CXS MORIS**

If comfort had any form, it would look like the new Moris sweatpants, which have an elastic waistband with lacing and front zippered pockets.

## CXS DURHAM

We have innovated the blue shade of the Durham men's jacket. It will now be in a more modern tone to match the Naos or Leonis trousers.

## CXS ARYN

To the Aryn sweatshirts we add a sweatshirt in a camouflage design based on CXS Dixon garments.

## CXS BELLA

Based on the suggestion of our customers, we change the colour of Bella dresses to pure white without contrast accessories.

### **CXS CAMO**

The popular CXS Camo camouflage trousers are introduced in a version with detachable legs! The zippers are colour-coded for instant recognition of the right and left leg when reattaching.

### **CXS ODEON**

Basic Odeon sweatshirts are very popular in our range. We are therefore extending their offer with a white option, which can be used by painters, masons and other professions.

### **CXS DANIEL**

Azure blue is trending across the CXS range. The new colour of Daniel T-shirts is therefore not to be missed!

### **CXS NOLAN**

The new colour will please all those who need a red T-shirt and also like the material of NOLAN T-shirts.

### **CXS JACK**

We're expanding the colour range of Jack caps to include azure blue, white and deep orange to complement all CXS work collections.

### **CXS HV BRACES**

Another novelty in this year's assortment are reflective braces for increased visibility.

## **CXS CITYMAN**

You can use the new Cityman tricks mainly as covers for the city, whether on walk or run.

## **CXS LONE**

Pocket suitable for tools and leisure use with belt and metal buckle. Made of highly durable CORDURA® material that guarantees its longevity and keeps its shape.

## **CXS WASCO**

The new textile braided belt can be fastened at any point in the braided material.
